

New Source Review newspaper advertisements for construction permit applications, November 17, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: November 15, November 16, or November 17, 2005. Public notices are generally published every two weeks. The previous publication of public notices was November 1 – 3, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Wright Paving Contractors, Inc. with a mailing address of 372 Shelbyville Hwy., Fayetteville, TN 37334. They seek to obtain an air contaminant permit (Division identification number: 02-0110-01/58620) for modification of a Portable Drum Mix Asphalt Plant located at 196 L. Fisher Road, Shelbyville, TN 37334. This existing operation consists of a 300 ton per hour portable drum mix asphalt plant, crushed rock and sand stockpiles, and associated equipment used to product hot-mix asphalt. Natural gas and No.2 fuel oil are currently used for fuels. A baghouse and wet suppression are used for pollution control. The requested modification is for the addition of waste oil as a fuel. There would be a no physical construction. Regulated air contaminants emitted by this source would increase. Mr. Robert Benjamin is the assigned Division person.

For the Bedford County “Shelbyville Times-Gazette”--published once on or before Thursday, November 17, 2005.

FIRST APPLICANT

The first applicant is SCP, LLC, with a mailing address of P.O. Box 82, Crab Orchard, TN 37723. They seek to obtain an air contaminant permit (Division identification number: 18-0126-01/58587) for construction of a Portable Rock Crushing and Sizing Operation on Highway 70 East, Crab Orchard, TN 37723. This proposed operation would consist of a diesel-powered rock crusher and screen, conveyors, crushed limestone stockpiles, and associated equipment used to produce crushed limestone aggregate. Wet suppression would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

SECOND APPLICANT

The second applicant is Sequatchie Concrete Service with a mailing address of P.O. Box 129, South Pittsburg, TN 37380. They seek to obtain an air contaminant permit (Division identification number: 18-0127-01/58597) for construction of a Concrete Batch Plant Operation at 705 Chestnut Hill Road, Crossville, TN 38555. This proposed operation would consist of a concrete batch mixer, dry powder cement silo storage, crushed limestone/gravel/sand stockpiles, and associated equipment used to produce ready mix concrete. A baghouse would be used to control particulate (TSP) emissions. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before Thursday, November 17, 2005.

The applicant is Insul-Therm Company with a mailing address of 510 Midway Circle, Midway, TN 37809-3706. They seek to obtain an air contaminant permit (Division identification number: 30-0131-08/58596) for modification of a Screening Operation located at the same address. This existing operation consists of a screen and other equipment used in the screening of magnesium oxide (MgO) products. A baghouse is used for pollution control. The requested modification is to update the emissions. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, November 17, 2005.

The applicant is City of Brownsville with a mailing address of P.O. Box 375, Brownsville, TN 38012. They seek to obtain an air contaminant permit (Division identification number: 38-0074-01/58567) for an Air Curtain Destructor located at 1004 W. Cooper St., Brownsville, TN 38012. This existing operation consists of equipment used to burn wood, wood waste, and yard waste. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

For the Haywood County "States Graphic"--published once on or before Thursday, November 17, 2005.

The applicant is Marble Perfectors with a mailing address of 120 Stones River Road, LaVergne, TN 37086. They seek to obtain an air contaminant permit (Division identification number: 75-0593-01/58594) for construction of a Cultured Marble Manufacturing Operation at the same address. This proposed operation would consist of a cultured marble process line including resin mixing and gel coat application. Exhaust filters would be used to control particulate (TSP) emissions from spray booth overspray. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Rutherford County "Daily News Journal"-- published once on or before November 17, 2005.

The applicant is Infinity Spas with a mailing address of 134 Frog Level Road, Gray, TN 37615. They seek to obtain an air contaminant permit (Division identification number: 90-0280-01/58579) for a Fiberglass Surface Coating Operation located at the same address. This existing operation consists of equipment used for the manufacture of spas. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.
